

ChildCare INTERNATIONAL
Breaking the cycle of poverty - one child at a time

Love Across the Miles

During the pandemic, ChildCare INTERNATIONAL's field partners around the world have been faithful and courageous in serving and helping children. With donations from sponsors and donors, ChildCare INTERNATIONAL continues to support families who, due to COVID-19 and the slowing economies, have lost their income. It has been a very confusing and challenging time for the families of our sponsored children, who have been unable to work or make a living over the past months. In any crisis, the poor and vulnerable are the first to suffer, therefore, we are very grateful for your faithful provision towards the children we serve. Together, we are making a significant difference in the lives of children around the world!

Because of your support, we have been able to provide food relief for our sponsored children and their families. Our partners in Uganda shared that the response of those who received food packages were tears of joy. In particular, one family of nine was found stranded in the middle of the afternoon with no hope of lunch, but were so joyously grateful when food was delivered to them. And out of excitement, children began carrying bags of flour on their heads!

As expressed by a family ChildCare INTERNATIONAL supports, "May God bless the generous people whom He used to make this happen."

Grateful Hearts

Deivid is one of the many children in Guatemala who is so happy about receiving his new school supplies! Through the generosity of sponsors and donors, Deivid and his peers have been provided with the necessities they need to succeed in school and stay healthy, such as notebooks, uniforms, toothbrushes, hand soap and face masks.

Thanks to sponsorship, orphans and vulnerable children in Rwanda are accessing rich opportunities that are helping them reach their full potential. At school, our sponsored children are growing in their knowledge, competence and wisdom in godly values, while also having their basic needs met. Sponsorship provides proper nutrition and access to educational materials. Teachers are seeing how being sponsored has brought great motivation and confidence to their students. Most importantly, sponsorship has given children the opportunity to hear the message that God loves them and has a unique purpose for their lives.

Our sponsored children in the Philippines are very excited about the new computers at the learning centre! 14-year-old Jhessamae is one of the students in the digital program. She has been sponsored through ChildCare INTERNATIONAL since she was 7 years old and is thankful for the opportunity to receive education, as well as learn how to type on a computer and gain life skills. Jhessamae, along with her peers, say: "We are so thankful because you make our faces happy! Thank you for all your support. We love you so much!"

Help Keep Children Safe & Healthy

During this back-to-school season, please consider donating towards these high-impact school projects. Your generosity will allow children to receive education with their health and safety prioritized during the COVID-19 pandemic.

Washing Station for Rwanda: \$1,900

Blessing School in Rwanda is constructing a washing station, which is essential for limiting the spread of COVID-19. Please help us send students back to school safely through this project!

Sanitary Filter for the Dominican Republic: \$1,200

Nest of Love School needs a sanitary filter to support the health and learning of its students and staff. The current septic wells are too small and often overflow. With your support, *Nest of Love* will dig a well and install a new filter so that students and staff will no longer be disrupted by the odour and contamination.

Hygiene & COVID-19 Equipment for Guatemala: \$4,335

Please partner with us to provide *El Mesias Christian School* with appropriate hygiene supplies, cleaning equipment and storage shelves to limit the spread of COVID-19. This will ensure that government requirements are fulfilled for students to return to school, while the health of all students and staff are protected.

Technology for Blended Learning in Guatemala: \$14,800

El Mesias Christian School also needs technology to support in-class and virtual learning for students due to COVID-19. Please partner with us to provide computers and wireless systems to enhance their learning.

Your Child is Waiting

For only \$40 a month, you can transform a child's life through sponsorship!
